

SafeNet MobilePASS Token

Enrolling and Activating MobilePASS Token

IGATE is now a part of Capgemini

People matter, results count.

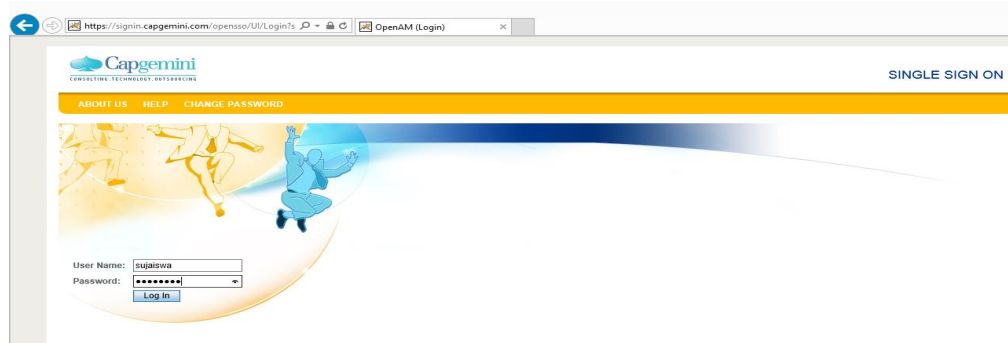

Assign MobilePASS Token

1. Access SelfPortal following below link
<http://selfportal.capgemini.com>

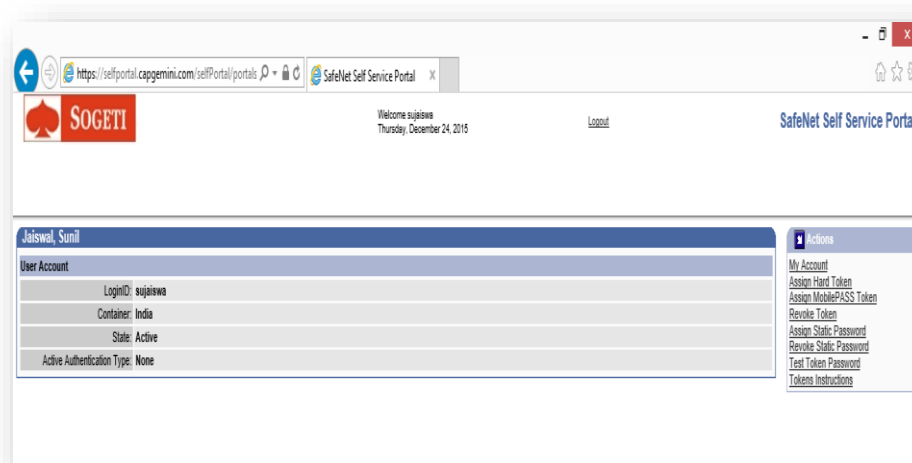

Note: - This would redirect to Single Sign On page

2. Enter Capgemini CORP Domain ID/password to Login.
Enter your login-id in the username field (do not provide any domain name before your login id)

Note:- The below page will appear while accessing over internet and if accessing through IGATE network this page will be skipped

3. Post Login SafeNet Self Portal page will be displayed as below. On this page Select **“Assign MobilePASS Token”** from the Actions menu available on the right hand side of the page.

- On the next Screen as below, Click on the **Add Value** button and select your date of joining from the calendar. Date of Joining will be displayed as DD/MM/YYYY.

Next enter your **Manager's Last Name** and click on the **"Save"** button

Note: If you are not aware of your date of Joining and /or Your Manager's last name, please contact your Manager / BU HR.

The screenshot shows the 'Assign MobilePASS Soft Token' page in the SafeNet Self Service Portal. The page includes instructions for assigning the token and an 'Identity Validation' section. In the 'Identity Validation' section, the 'Start Date Validation' is set to 11/07/2013, and the 'Manager LastName' is set to 'Jale'. There are 'Add value' and 'Delete' buttons next to the date, and a 'Save' button at the bottom. A sidebar on the right lists various actions like 'My Account', 'Assign Hard Token', 'Assign MobilePASS Token', etc.

- On the next screen, click on the enrollment URL to proceed Enroll the MobilePASS token on your Laptop. You will also receive an e-mail from SafeNet Authentication server with the same enrollment URL. You can use either one of them to proceed for enrollment.

The screenshot shows the 'Activate MobilePASS Soft Token' page in the SafeNet Self Service Portal. The page includes instructions for activating the token and an enrollment URL: <https://se.safenet-inc.com/selfEnrollment/index.aspx?code=yfvubOPX55iyuRDVVRZMjp1B4k>. There are also instructions for BlackBerry MobilePASS client configuration. A sidebar on the right lists various actions like 'My Account', 'Assign Hard Token', 'Assign MobilePASS Token', etc.

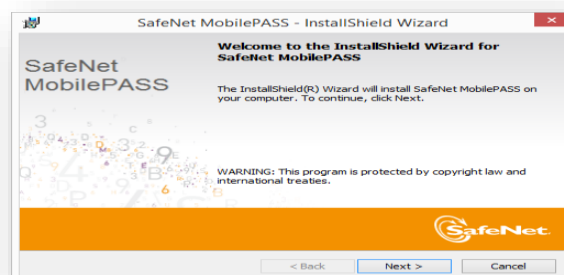

6. The Enrollment URL will open the page as seen below. Please note that the MobilePASS token client is already pushed on your Laptop. You can verify by checking the same in the Program List /Application List/ Add/Remove Programs. If available go directly to point 7. If the MobilePASS client is not installed, you can install the same provided you have download and administrative rights to the Laptop. Else contact Helpdesk and they will install the client for you. Follow Steps 6A, 6B & 6C for downloading and installing the client

- 6A. On the Self enrollment page as shown below, Click on download the MobilePASS installer and then click on run on the next screen.

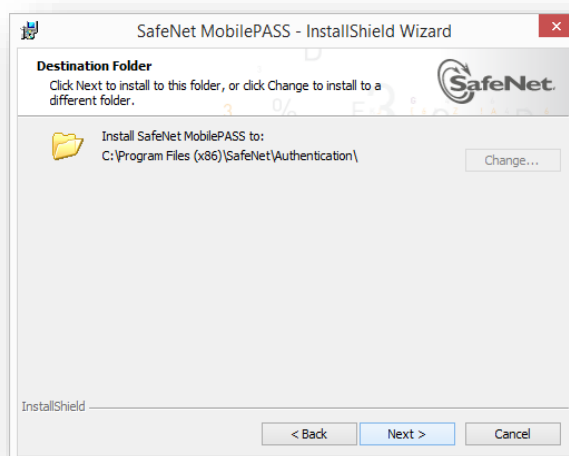

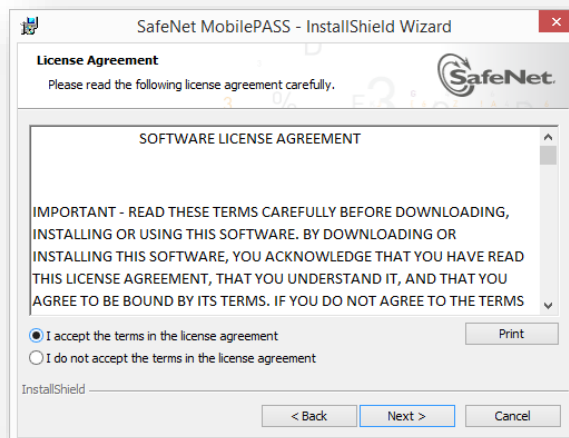

- 6B. Then follow the installation process as depicted in the screen shots below.

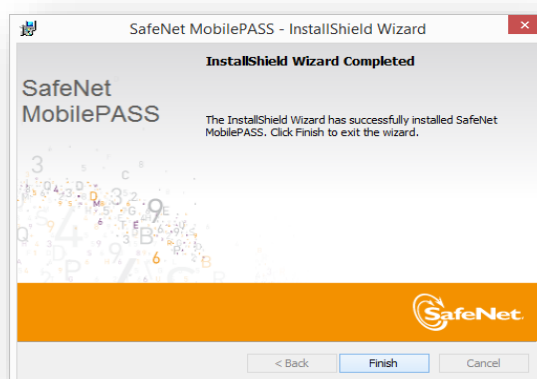

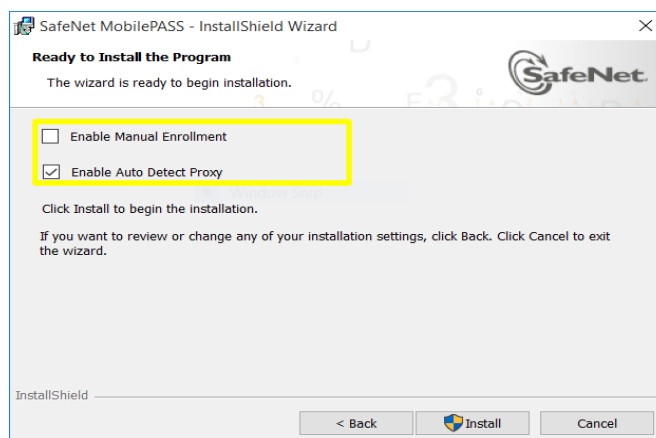

Click on next

Click on accept the license agreement, Next

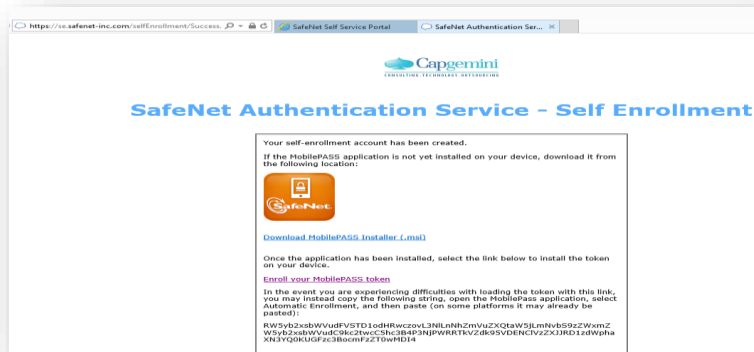

IMPORTANT: On the screen, Un-check “Enable Manual Enrollment and Check “Enable Auto Detect Proxy”

6C. Once installation is complete follow the process from Point 7 to enroll the SafeNet MobilePASS token.

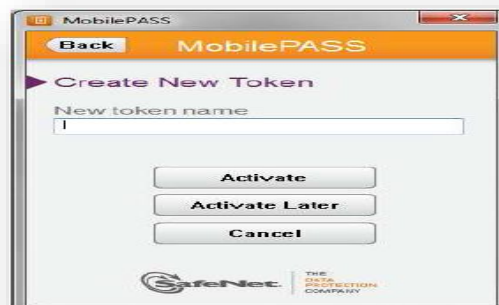

- Continue from point 6 here, if the MobilePASS is already installed on your Laptop. To continue click on the **Enroll your MobilePASS token** as shown on the screen below.

Click on Allow

- Enter a Token name to identify it and click on Activate button. The Token name can be any name that you wish. It could be your First name or your last name or a generic name such as MyToken.

- Enter 4 digits PIN and click Continue. This is similar to your ATM / Credit card PIN. Please memorize and do not store/save it anywhere.

Confirm PIN by reentering and click Continue.

10. Your token has been successfully activated and displays a dynamic token password you can test in the "Test Token Password" link on the SelfPortal Web page.

11. Once you have tested the token you are ready to browse the applications over the internet. Follow these steps to access <http://talent.capgemini.com> over internet.
12. Open the MobilePASS client on your Desktop/Laptop.
 - a) Type <http://talent.capgemini.com> in your browser & You will get a sign-in page. Enter your IGATECORP Login ID.
 - b) Enter you 4 digit secret PIN, that will generate a random 6 digit passcode. Copy this passcode in the password field and enter to continue.
 - c) You are now logged onto the Talent over Internet. As mentioned in the e-mail all Capgemini Web sites Applications and a few IGATE Web sites will be accessible over the internet only via the above dual factor authentication process.

****Note:** It is highly recommended that users should immediately change their CORP Domain password by browsing <http://mypassword.capgemini.com>. Reference document "Changing CORP Domain password over Internet."
